

# Introduction

**OEE IMPACT**  
SOFTWARE

**PRODUCTIVITY IMPROVEMENTS COME AS STANDARD**

Using OEE Impact Software will revolutionize the way in which you collect and analyze your manufacturing shop-floor data. Its feature-rich functionality and easy to use interface enabling you to save countless man-hours over your current methods of collecting and analyzing machine **performance data and bottlenecks**.

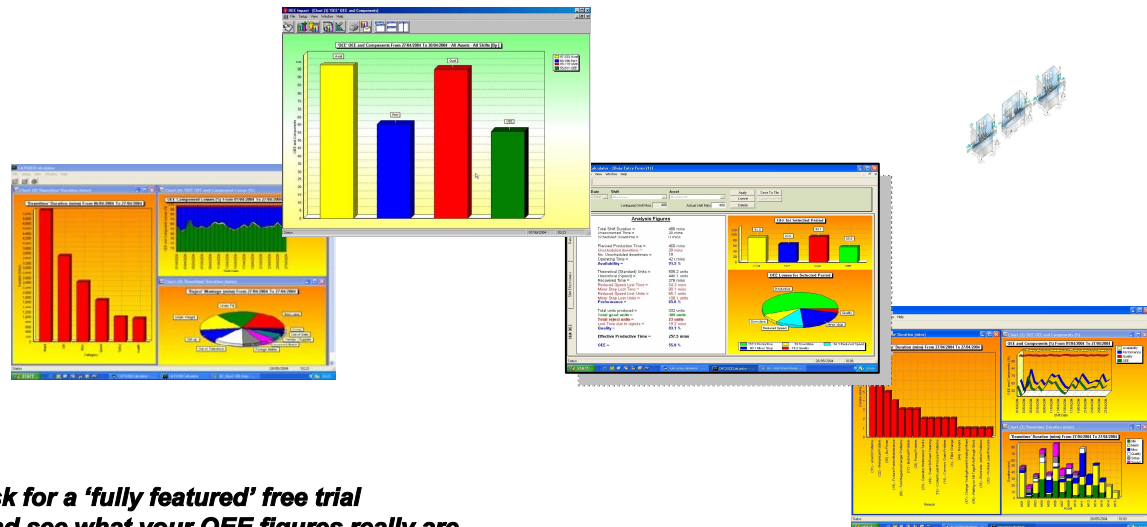

OEE IMPACT has been specifically designed around the industry accepted and proven OEE Calculation standard and includes all the tools you need to measure and **Impact your productivity and capacity**.

However, OEE Impact goes a step further in providing a host of additional features compared to a standard OEE based solution. From the experience we have gained over many years, we have logically extended OEE IMPACT to incorporate valuable capabilities to allow the collection and analysis of virtually any **efficiency data**, such as: **Machine / Line Set-up Time; Product Analysis; Scrap / Rejects; Re-work; Maintenance Times; etc..**

It doesn't stop there. OEE IMPACT is fully scalable and can be expanded with a number of add-on modules, including the automatic collection of data in real-time from your shop-floor assets. As a part of the LEAN Impact Suite of products OEE IMPACT will give you confidence that it will never be outgrown, making OEE IMPACT an invaluable tool now and into the future with which to manage your business.

We guarantee that OEE IMPACT will become a key component in your productivity toolbox, enabling you to get to fix problems with an impact:

- Machine cycle time
- Machine availability
- Downtime
- Utilisation
- Throughput
- Shop Floor losses
- Maintenance performance
- Product performance
- Mean time between failures
- Bottle neck identification
- Production and shift performance
- Improve capacity planning
- Wastage / Scrap / Rejects Analysis
- Plus much, much more.....

***Don't just take our word for it. Ask for a 'fully featured' free trial of OEE IMPACT product today and see what your OEE figures really are.***
